### DETAILED ACTION

- I. Claims 1-8, 21-23, 24-36 and 47-57 are drawn to a diaphragm assembly, classified in class 73, subclass 119R.
  - II. Claims 9-20, drawn to an exhaust gas pressure sensing system, classified in class 73, subclass 118.1.
  - III. Claims 37-46, drawn to an engine, classified in class 73, subclass 116.
1. The inventions are distinct, each from the other because: Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I does not require a probe for being secured to the marine engine and configures to extend into the engine exhaust path as specified in invention II or a powerhead as illustrated in invention III. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and III, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr Bruce Atkins on 6-5-02 to request an oral election to the above restriction requirement, but did not result in an election being made

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2855

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maurice Stevens whose telephone number is (703) 306-5895. The examiner can normally be reached on Monday-Thursday from 7:00 AM-3:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Benjamin Fuller, can be reached on (703) 308-0079. The fax phone number for this Group is (703) 308-7382.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0956.
